SO I.1 Call: IROP-POI-SCII-2021-76

improving the accessibility of rural areas

Contracted amount

**90.0 million EUR**

Total allocation in the call

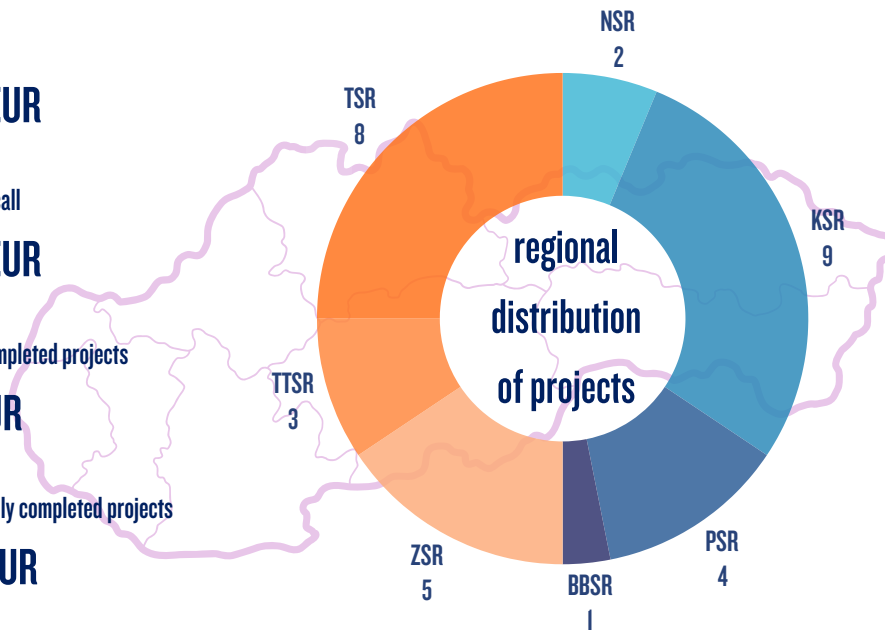

**90.0 million EUR**

Expenditure in fully completed projects

**0.0 million EUR**

Expenditure in physically completed projects

**42.0 million EUR**

APPLICATIONS RECEIVED

**25**

CONTRACTED PROJECTS

**25**

FULLY COMPLETED PROJECTS

**0**

PHYSICALLY COMPLETED PROJECTS

**24**

**ACHIEVED**

**EXPECTED**

## OUTPUTS AND RESULTS

**60.5**

**91.8**

**Reconstructed or modernized roads (km)**

**1.66M**

**6.18M**

**Time savings in road transport (EUR)**

## FINDINGS AND CONCLUSIONS

Supported projects contribute to saving time in road transport and improving the accessibility of rural areas

The achieved benefits by the end of 2023 are limited due to a significant portion of projects not being formally completed at the time of evaluation

Investment support for the reconstruction and modernization of second and third class roads will have the greatest impact on time savings in road transport in the districts of Liptovský Mikuláš, Myjava, Partizánske, Bánovce nad Bebravou, and Trenčín
