

# PA 4

SO 4.3.1 Call: IROP-PO4-SC43I-2021-65

improvement of environmental aspects in urban areas

Contracted amount

42.8 million EUR

Total allocation in the call

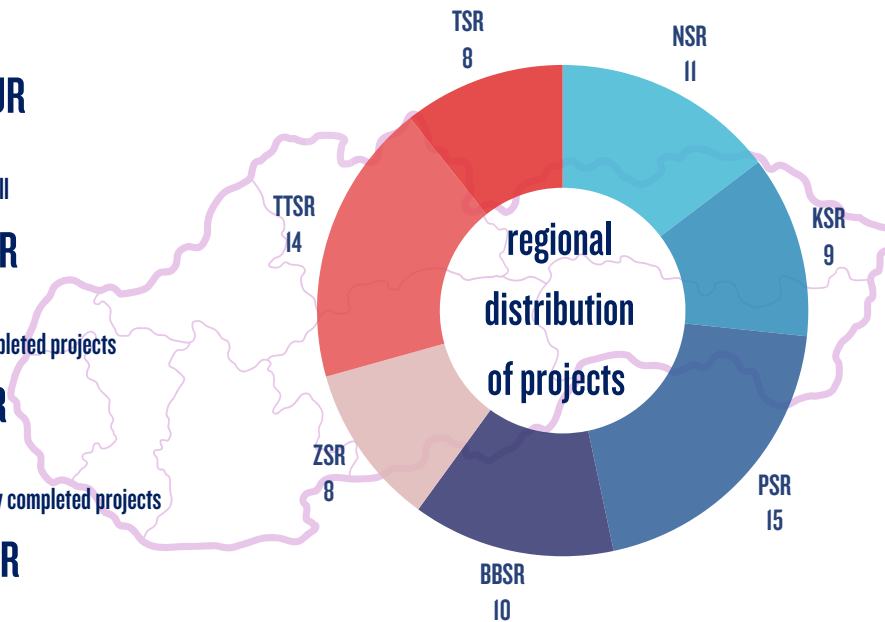

41.2 million EUR

Expenditure in fully completed projects

5.2 million EUR

Expenditure in physically completed projects

18.3 million EUR

ACHIEVED

EXPECTED

## OUTPUTS AND RESULTS

17	25		Established elements of green infrastructure
254,600	515,200		Revitalized open spaces within blocks (m²)
196,300	404,500		Created or restored open spaces (m²)
33	71		Built capacities for rainwater retention
0	2		Established measures to reduce noise

## FINDINGS AND CONCLUSIONS

The outputs of interventions have a very small share in the total area of green infrastructure

Interventions will have a positive impact on increasing the attractiveness of cities in the short term

Revitalized urban spaces will contribute to cooling residential areas in the summer months, stabilizing the area, capturing water, and improving air quality in the long term.

Implementing green infrastructure projects will help cities and municipalities better adapt to climate change and contribute to improving the quality of life for residents
